Introduction

Learning the notes on the guitar fretboard is one of the most useful and rewarding things you can do as part of your guitar education. This PDF accompanies the lesson, '[How to Learn the Notes on the Neck in 12 Days](#)', which takes the tedium out of learning the notes on the neck, and with disciplined study, in a fraction of the time.

Enjoy!

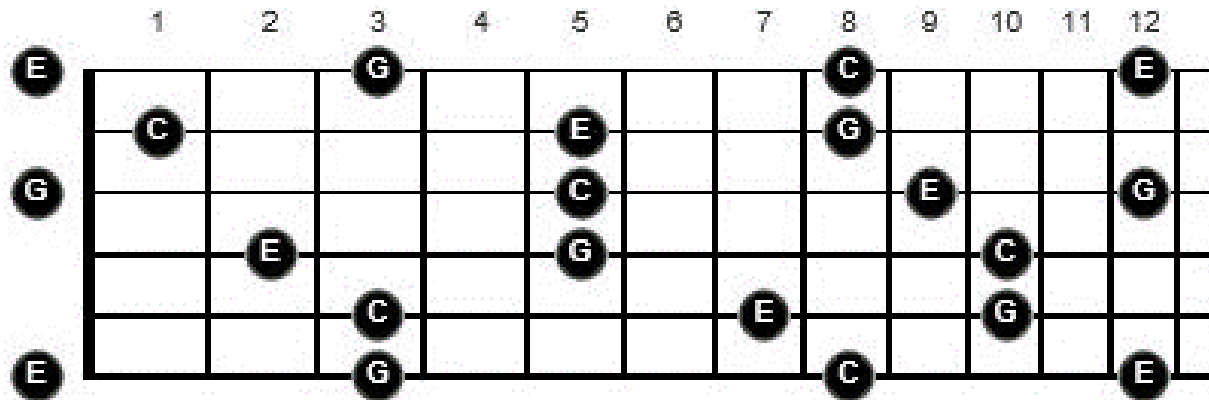

Matt

www.unlocktheguitar.net

Day 1

Goal: Learn all the notes in a C Major triad all over the neck.

C Major Triad: C, E, G

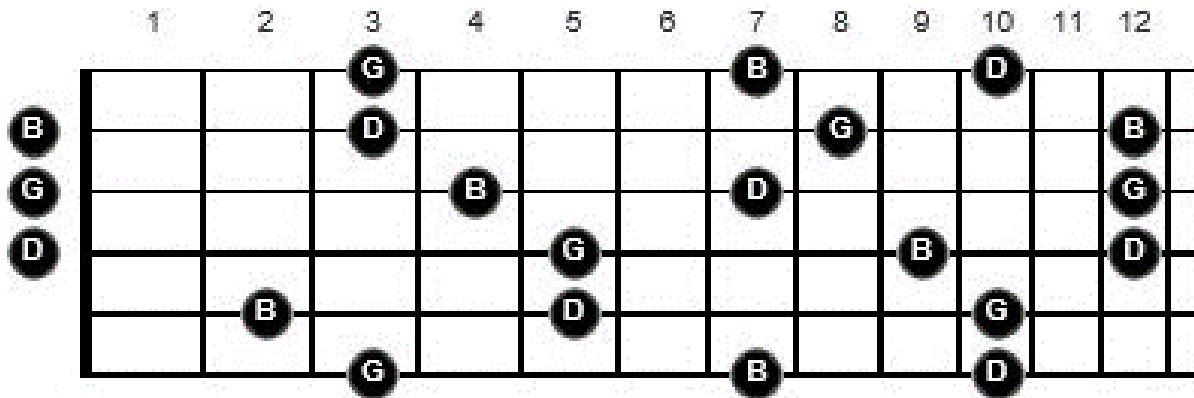

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 2

Goal: Learn all the notes in a G Major triad all over the neck.

G Major Triad: G, B, D

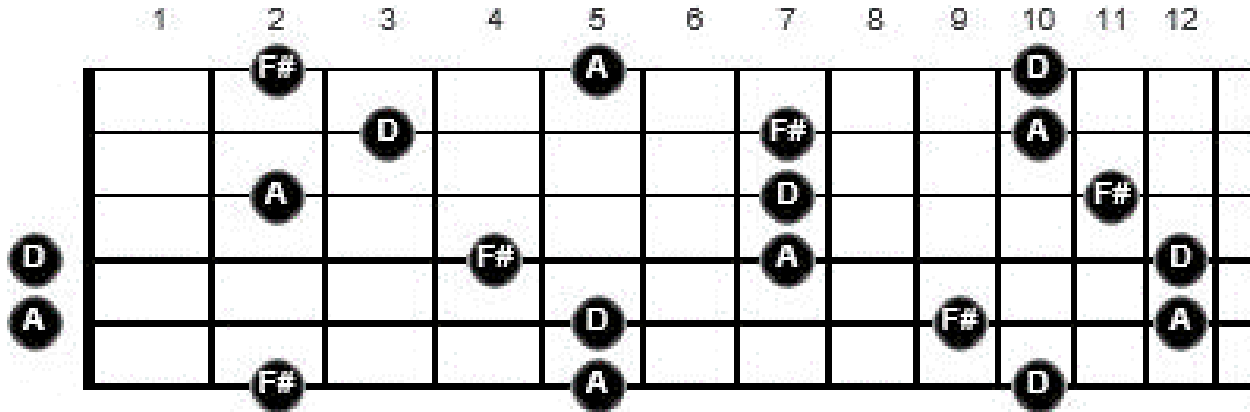

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 3

Goal: Learn all the notes in a D Major triad all over the neck.

D Major Triad: D, F#, A

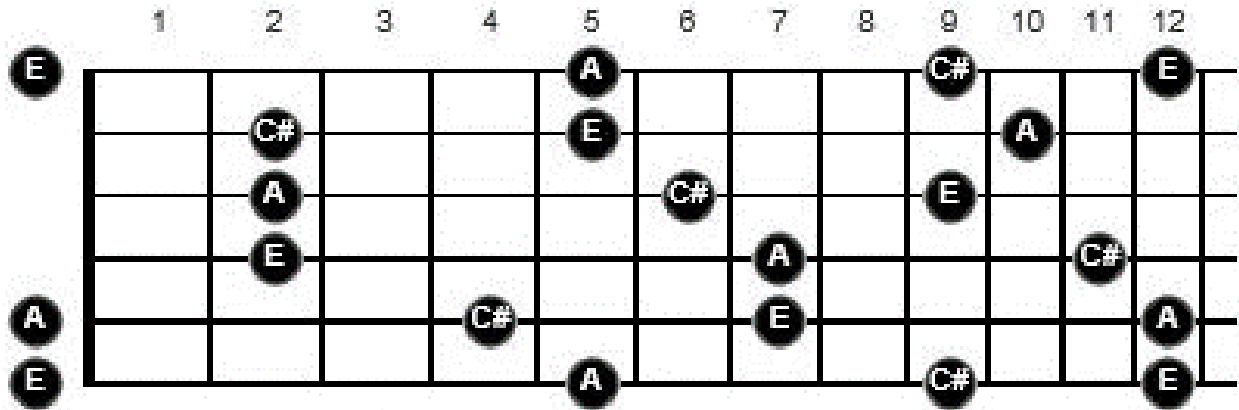

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 4

Goal: Learn all the notes in an A Major triad all over the neck.

A Major Triad: A, C#, E

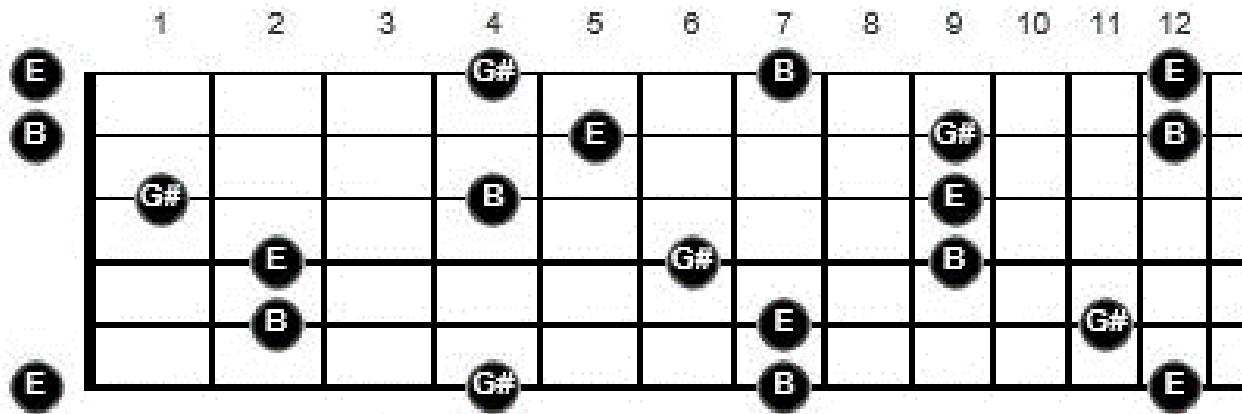

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 5

Goal: Learn all the notes in an E Major triad all over the neck.

E Major Triad: E, G#, B

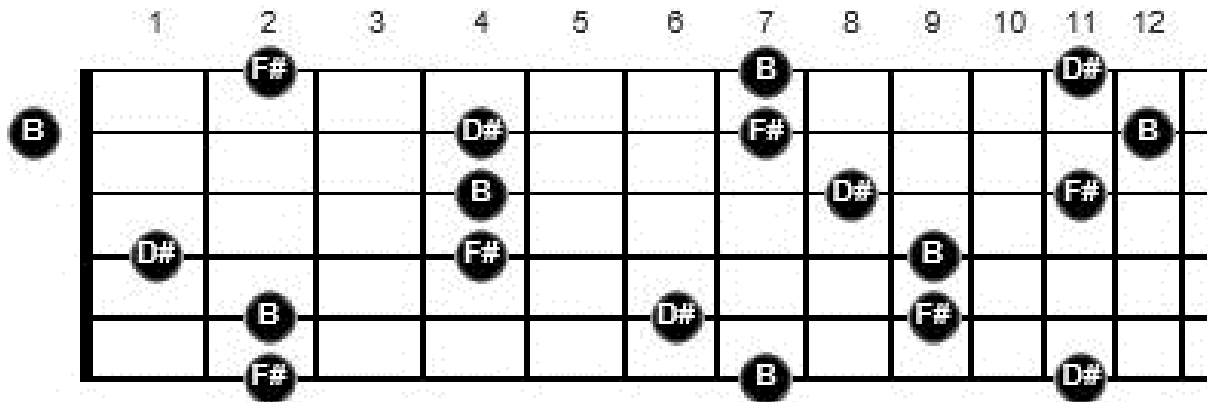

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 6

Goal: Learn all the notes in a B Major triad all over the neck.

B Major Triad: B, D#, F#

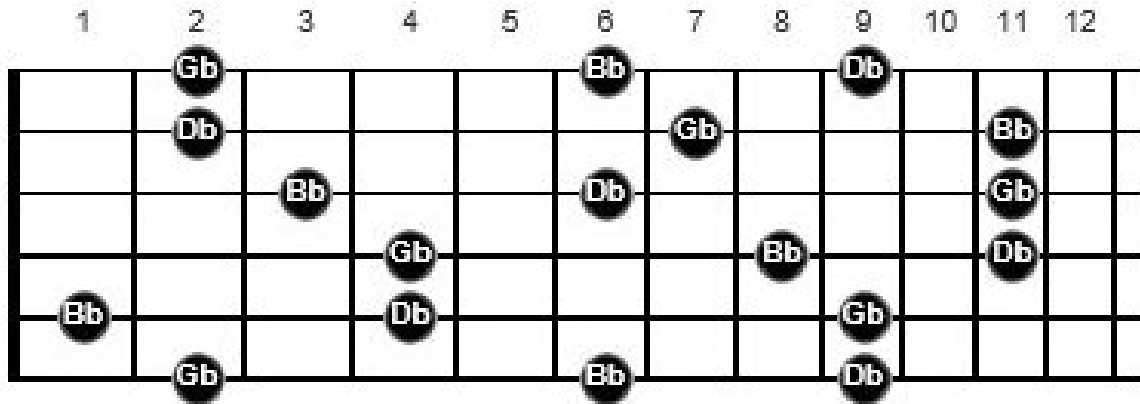

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 7

Goal: Learn all the notes in an Gb Major triad all over the neck.

Gb Major Triad: Gb, Bb, Db

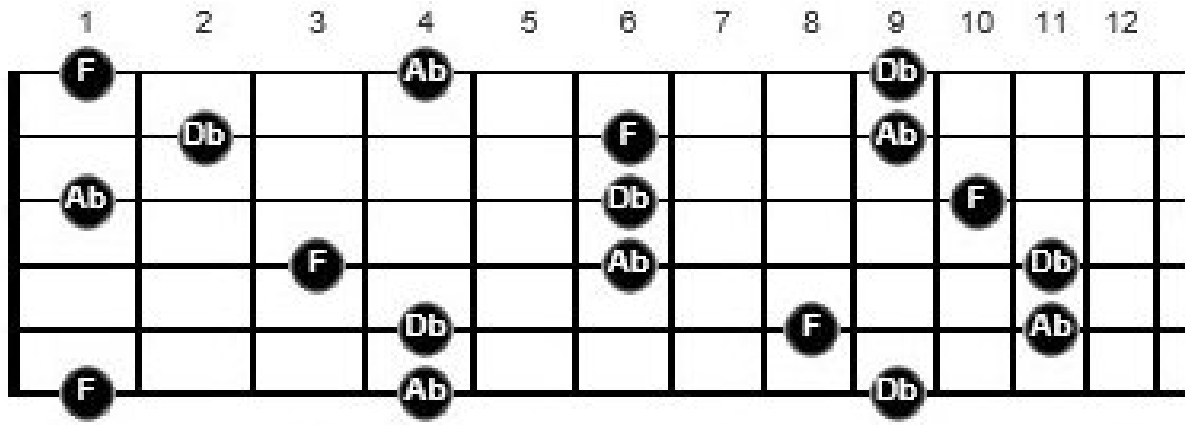

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 8

Goal: Learn all the notes in a Db Major triad all over the neck.

Db Major Triad: Db, F, Ab

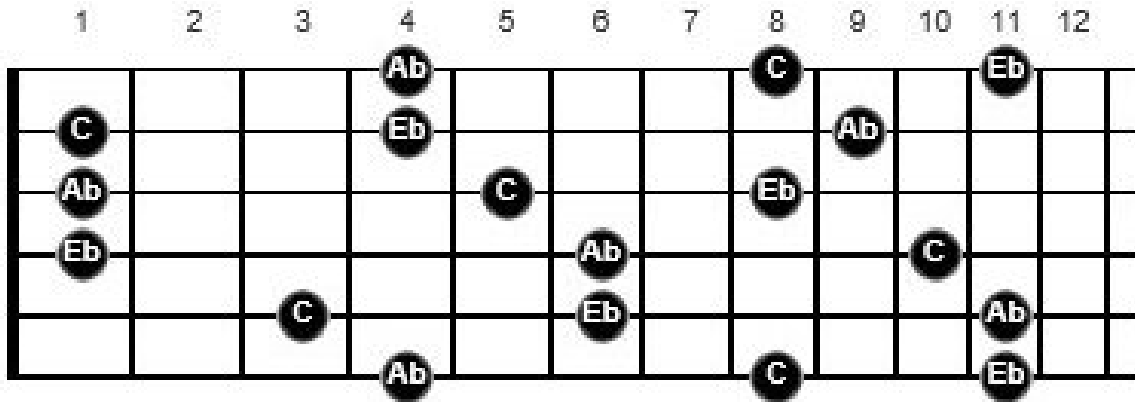

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 9

Goal: Learn all the notes in an Ab Major triad all over the neck.

Ab Major Triad: Ab, C, Eb

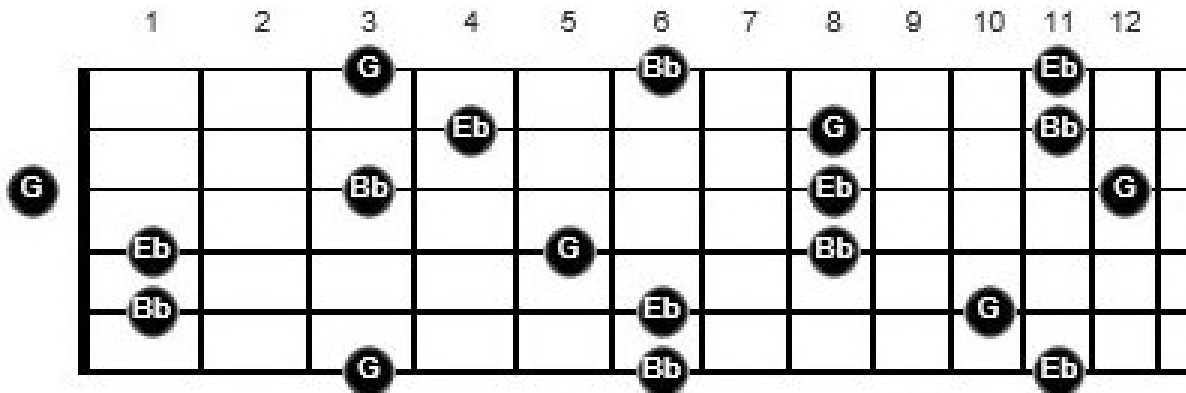

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 10

Goal: Learn all the notes in an Eb Major triad all over the neck.

Eb Major Triad: Eb, G, Bb

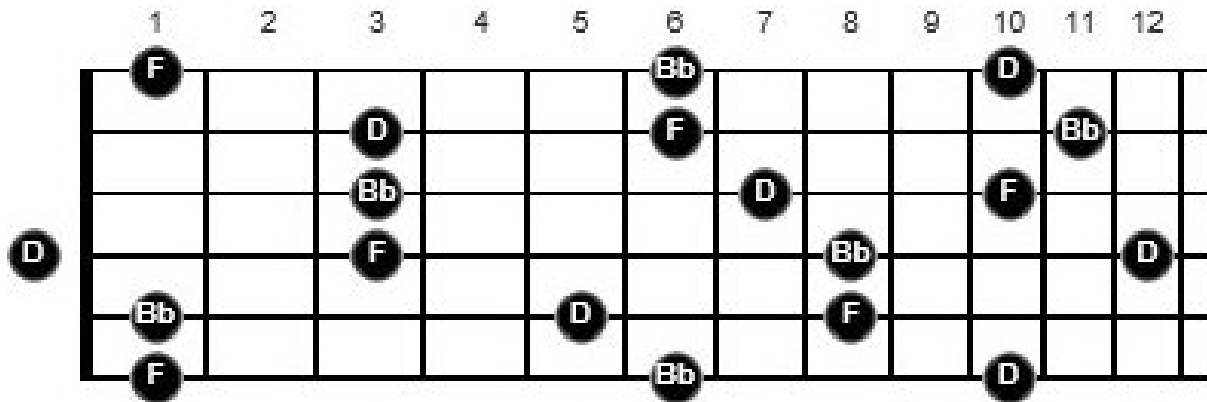

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 11

Goal: Learn all the notes in a Bb Major triad all over the neck.

Bb Major Triad: Bb, D, F

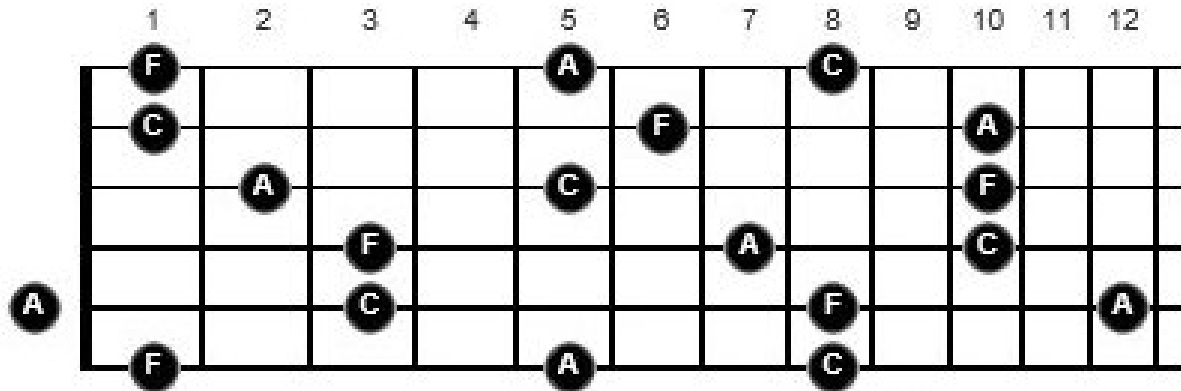

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.

Day 12

Goal: Learn all the notes in an F Major triad all over the neck.

F Major Triad: F, A, C

How to Practice

Practice in all directions on the fretboard; vertically, diagonally and horizontally (up and down each string). Do not play chords or arpeggios as we want to avoid shapes in favor of learning note location. Call out and sing the names of the notes as you play them. Don't play a note unless you can name it. When you no longer need to refer to the diagram to find any note in the triad, your day's work is done.
